Pubrcn 4636 / 18-7-50

From
Sri G.Rami Reddi B.A.,
Collector, Bellary.

To
The Chief Secretary to Government For. St. George, Madras.

R.C. No. S.1 10189 A/50 dated 12-7-50.

Sir,

Sub:- States - Sandur- Electricity- Lighting - Sandur Panchayat area- supply of electricity- orders -requested.

Ref:- Special Officer, Sandur R.C. No. 940/50 dated 2-7-50.

*****

I enclose a copy of the report of the Special Officer, Sandur, cited above. The Panchayat Board at Sandur, has not yet reorganised. The Inspector of Municipal Councils and Local Boards, Madras, had been addressed to take steps for the reconstitutuon of the Panchayat Board. He has informed me that the matter is till under correspondence and the orderse of the Government are awaited.

In the circumstances reported by the Special Officer, Sandur, I request that necessary instructions may be issued to the authorities of the Electricity Department to follow the existing practice obtaining at Sandur regarding electrification till the Panchayat Board, Sandur is reorganised.

Copy of R.c. 940/50 from the Special Officer, Sandur to the Collector, Bellary dated 2-7-1950.

.....

Sub:- Electricity- Lighting -.Sandur Panchayat area- Bulbs removed by Electricity Department- Report Submitted.

****

1/ The Electric Bulbs of street lamps in Sandur Panchayat area were removed by the Electrical Supervisor, Sandur during the month of Feb. 1950 in order to effect some changes and to reduce the load due to the break down in the power house . The Electrical Department have not replaced the bulbs inspite of ~~may~~ my repreated requests. Much difficulty is being felt by the public for want of lingting.

2/ On my repeated representations the Electrical Supervisor, Sandur now reports that he cannot replace the bulbs as the Electrical Department had not entered into an agreement to replace them.

3/ There was no agreement between the Government of Sandur and the Municipality in the erstwhile Sandur State but the Administration of Municipality was paying a flat rate of Re.15/- per lamp perannum. Now the Electrical Department wants that fresh agreement should be entered into. The Electrical Department's refusal to replace street bulbs according to Sandur practice tantamounts to a refusal to supply current and service though equipment till an agreement is effected. It is very surprising that the Electoricity Department should suspend street lighting for a mere technical defect which Citizens of Sandur are not responsible. I only request that pending reorganisation of the Sandur Pancha yat Board the Electricity De partment may be asked to follow the existing practice and to keep the lighting of Sandur Panchayat or debit on Governemen- ment . The Electrical Department may therefore be asked to replace the bulbs that were removed by them during Feb. 1950.

W.r. to the remarks of A.S. on p 6 ante, it is submitted that the Sandur scheme dealt with in G.O. Rt. No 3292 PWd 1/91/50 (copy at (1c)) relates to the installation of two available second hand Diesel Elec. generating sets in replacement of the existing 10 sets and the construction of necessary distribution at Sandur and the sanction of a net expenditure of Rs 1,63,000/- for the purpose. This scheme has no reference to the proposal under consideration, namely giving necessary instructions to the Authorities of the Electricity Dept. to continue to follow the practice hitherto in vogue in respect of Streetlighting till the Panchayat Board Sandur is reorganised. This section has no other remarks to offer. W.r. to the draft memo on p 6 ante.

Electricity - Sandur : Street lighting in Panchayat Area.

Ref:- From the Collector of Bellary, Lr.No. R.C. S.I. 10189 A/50 dt 12-7-50

It has been reported by the Divisional Elect. Engineer Bellary that in the month of April 1950, the Crossley Set in the Sandur Power House had to be overhauled and that it was necessary to cut off some loads to adjust the loads pertaining to the With a view not to inconvenience the public by cutting off the house lighting loads, the Supervisor, Sandur removed the street light bulbs for a period of one week since those were ~~full moon days~~ moon-lit and soon after the repairing work was over the street lighting was restored to the normal level. He also reports that the street light bulbs have fused at the rate of 8 to 12 bulbs per month and that as the Supervisor had not sufficient stock of bulbs, he could not replace them as and when they were fused. Indents for street lighting bulbs have now been placed and fused bulbs will be replaced soon after the stocks are replenished. Necessary instructions have also been issued by the S. E. Hindupur Power System, Vijayawada to the Divisional Electrical Engineer Bellary.
